

Releases 2023

Release 2.7 - 06.12.2023

ISSUING API

Changed

- Existing endpoint `PATCH /v1/api/cards/{ppan}/state` . Change card status has two new card statuses `BLOCKED_TERMINATED` and `BLOCKED_NOT_RECEIVED` which closes the selected card forever and can't be unblocked.

Fixed

- Internal technical improvements.
-

Release 2.6 - 26.10.2023

ISSUING API

Changed

- Customized SMS template for Visa cards when the cardholder requests virtual card details using `GET/v1/api/cards/{ppan}/pan` .

Added

- New endpoint `POST /v1/api/cards/{ppan}/renew` . The request allows API users to renew the plastic card using selected PPAN within two months before it expires.
 - New HTTP response 503 for API users - "The server cannot handle the request due to the maintenance". The new HTTP response notifies API users that endpoint is not available due to scheduled maintenance works.
