

Release Notes

Overview

Welcome to the DECTA Release Notes. This section provides a consolidated chronological timeline of updates, enhancements, and mandatory changes across all our platforms:

- **Issuing API:** Updates related to card issuance, tokenization, cardholder management, and processing.
- **Acquiring API & SOAP:** Updates related to payment acceptance, 3DS, merchant management, and payout scenarios.
- **IPCO Release:** Semi-annual updates based on International Card Organizations (Mastercard, Visa, UPI) release dates.

Release Schedule and Testing

- **API Updates:** Released iteratively to introduce new features and improvements. We advise clients to test vital requests in the Test environment before going live.
- **IPCO Updates:** Installed on a semi-annual basis (Spring and Autumn). Release notes are updated two weeks prior to the installation. Customers have the opportunity to test all implemented changes within the released version.

Choose a year from the menu to see the detailed change history.
